Praise the Lord all,

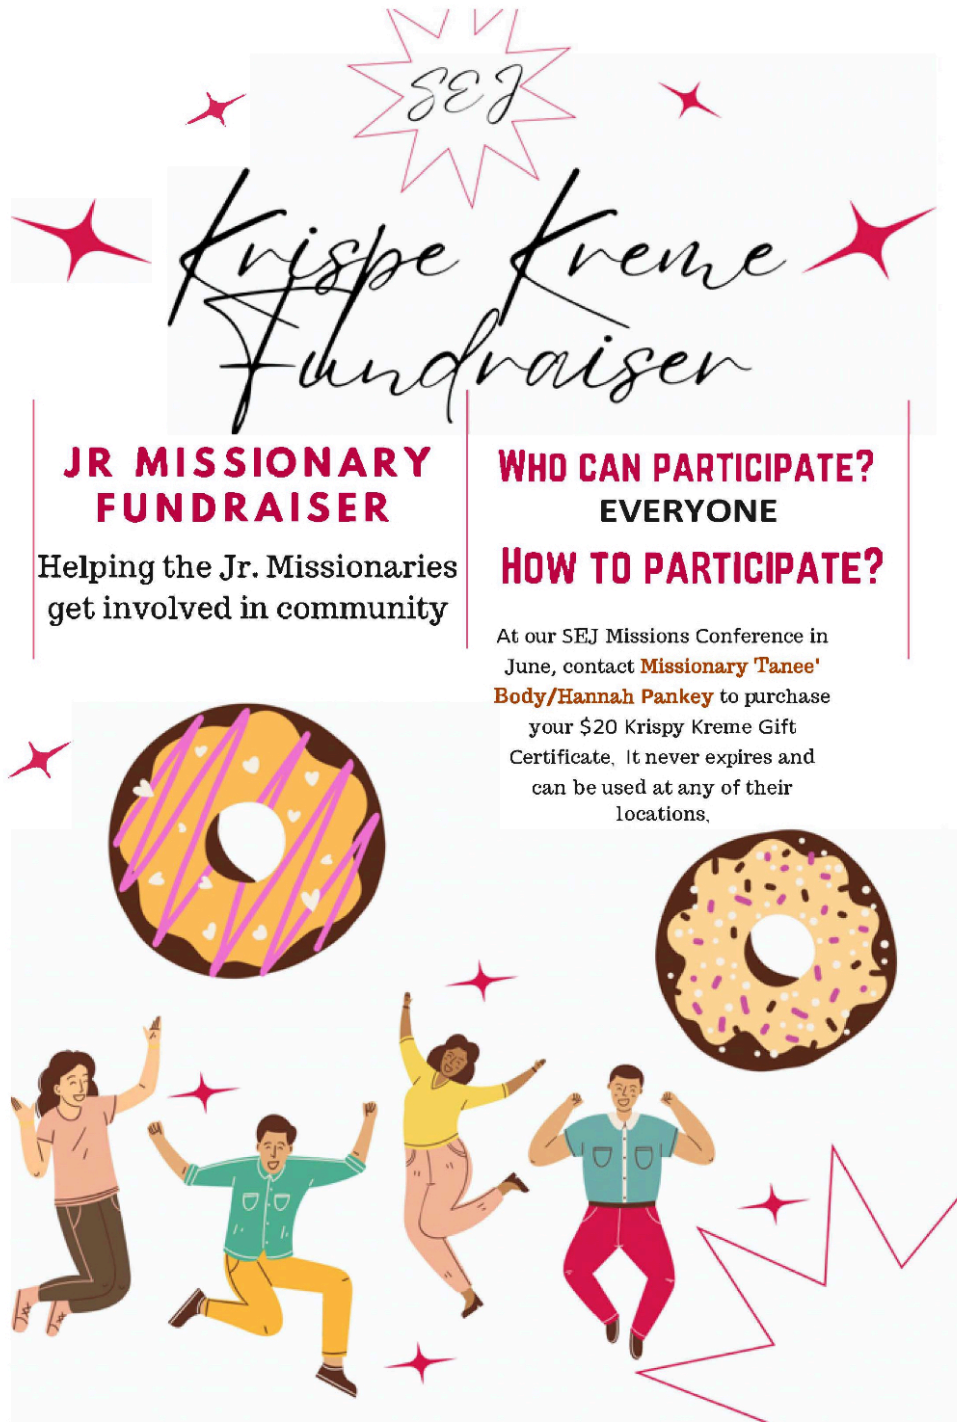

The Academic Excellence branch of IYYAD would like to invite all 13-18-year-olds to apply to be part of the Rising Leader Academy. This unique opportunity will allow a select cohort of youth to gain skills in professional, personal, academic, and spiritual development. Our monthly Saturday sessions are led by fellow saints who have taught on topics such as building your Spiritual resumé, personal finance for youth, knowing your talents, and understanding how your skills can be used academically and in the ministry. Each youth will also be matched with a CLGI mentor that they can contact throughout and beyond the program's conclusion in 2025.

We are accepting applications for mentees (youth ages 13-18), mentors (18+), and nominations for mentees, mentors, and session facilitators. We do ask that if you are planning to nominate someone, you provide their email and/or phone number so they can be contacted. A requirement for the youth and mentors that are selected is that they have their own email to be checked regularly, as well as the ability to download WhatsApp to be included in the group chats for quick access to information.

Good afternoon,

The SEJ Missions Department is excited to announce our upcoming junior missionary Krispy Kreme fundraiser. To make this event a success, we need your support in purchasing a \$20 gift certificate during our 2024 SEJ Missions Conference.

We will have a limited supply available, but desperately need your support. The certificates can be used throughout the contiguous U.S. and never expire.

We hope you know how much of a significant impact your donation and generosity will make in the lives of our junior missionaries.

Thank you for considering this opportunity to support our junior missionaries and in helping us reach our goal. Our POCs for this fundraiser are Junior Missionary Tanée Boyd/Hannah Pankey.

## Scholarship Opportunity for 2025

Greetings and Salutations Saints!

If you know of anyone who is a high school senior with a 3.5 gpa or better, please have them contact me for information on a CDEP scholarship that pays for the BA, Masters and Ph.D. (Guaranteed award for 2024 if they reach me today.) My friend and colleague (Dr. Issac Crumbly) of 25+ years asked me a short time ago to give him the name of someone I think meets the criteria for a CDEP scholarship.

Note: The CDEP program has been recognized by former President Obama... bottom line...this is a big deal!

**Summary:** Cooperative Developmental Energy Degree (CDEP).

CDEP's university partners consist of Fort Valley State University, Georgia Institute of Technology, Grand Valley State University, Pennsylvania State University, University of Alabama, University of Arkansas, University of Nevada at Las Vegas, University of Oklahoma, and the University of Texas at Austin.

FVSU-CDEP and its university partners have awarded 457 STEM degrees in the following disciplines: mathematics, engineering, chemistry, geology, geophysics, health physics, and biology.

CDEP offers dual degree STEM programs in a 3+3 format:

- Academically talented students enroll at Fort Valley State University for the first three years and pursue a major in mathematics, chemistry, or computer science.
- For the next 3 years, students pursue a master's degree at one of CDEP's partnering universities in engineering, geology, geophysics, or computer science.
- Students earn a BS degree from Fort Valley State University and a MS, or PhD from one of CDEP's partnering universities.
